The Christmas recital is the most popular one in my wife's and my studio. We schedule three short Christmas recitals each year so that all of the students who wish to perform are included. The arrangements in *Celebrated Christmas Solos, Book 1*, are for students at the late-elementary level. The carols and songs chosen are those most favored by younger students, as they love playing carols and songs that they know well. Short introductions and codas extend the arrangements into satisfying musical experiences. It is my hope that students will enjoy playing, teachers will enjoy teaching, and audiences will enjoy hearing these arrangements. After all, Christmas music captures the essence of the Christmas season! Merry Christmas!
